Conductor casing will not be used. The Purvis 10DD, 10TD, 10XD and 10WD will all be drilled from the same pad. The Purvis 10TD will be twinning the existing Purvis 10-1 well. The wells will be tied into the existing tank battery facility located approximately 87' north. Water well permit #13788-R was used to determine depth to ground water.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
