

## BMP

| <u>Type</u>                 | <u>Comment</u>  |
|-----------------------------|---|
| Planning                    | Chevron trains all employees in safe work practices, environmental health and ensure that proper personal protective equipment is available and being used. Chevron has a up to date Spill Protection Control and Countermeasure Plan for the Rangely field. Chevron has a zero tolerance policy regarding drug usage, with a education and compliance program to help reinforce this policy                                  |
| Site Specific               | Site was selected to utilize one location for 4 directionally drilled wells, this location is located along an existing lease road. These three (3) producing wells will have flowlines to a existing centralized production facility offsite, no large haul trucks will be need to collect produced fluids. The fourth well on this site will be an injection well to reinject produced water and CO2 for enhanced recovery. |
| Storm Water/Erosion Control | Top soil salvage and storage. Top soil will be stockpiled where no vehicle traffic will cross mounds. The stock piles will be protected from the wind and water erosion through the use of suitable weed free mulch and seeding.<br>Erosion will be controlled with the use of berms, and drainage control measures.  |
| Wildlife                    | Design powerlines to minimize raptor electrocution risk by incorporating powerline designs to minimize the risk.  |
