RE: COGCC Remediation No. 3863  
Segal Tank Battery (05-123-09053)  
Section 24, T4N, R66W  
Weld County, Colorado

Dear Ms. Webber:

I have reviewed the recent remediation status report for the Colorado Oil and Gas Conservation Commission (COGCC) remediation number 3863. The COGCC agrees to reduce the sample frequency for the remediation. The COGCC staff approves a reduction of sampling of the ground water monitoring wells at the site from quarterly to semiannual. Staff does not approve the request reduction to only annual sampling of all monitoring wells.

Should you have any questions, please call me at (303) 894-2100 ext.112.

Respectfully,

Robert H. Chesson, C.P.G., P.G.  
Environmental Protection Specialist
