Re: **Rule 603.a.(2) Waiver**  
Synergy Resources Corporation  
SRC Pratt 24-29D, 13-29D, 14-29D, 29QD, 29LD, 29HD  
SW/4 of Section 29, T1N-R68W  
Weld, County, Colorado

Dear Director,

Per rule 603.a(2), Synergy Resources Corporation (SRC) is requesting a offsetting property line waiver for the above captioned wells located in the SW/4 of Section 29, T1N-R68W.

The SRC State wells are located on a six well directional drilling pad, twinning the existing Pratt 2 Well. The Pratt 2 well was recently purchased buy Synergy Resources Corporation from Noble Energy with an effective date of December 1, 2010. The Pratt 2 well was Spud in October of 1981, and since then, the surface to the north of this well site has been sold and developed as a Regional Landfill. The Landfill and Surface owner have both agreed to Synergy producing the minerals in the SW/4 with the drilling of the above captioned six (6) wells from one pad. The consolidation of this pad and tank battery will allow us not to interfere with the Landfill operations or the future development potential of the surface owner, WWD Limited.

SRC respectfully requests that you approve this waiver per the support of both the surface owner and the off-set property owner as the location will not affect their land use plans and to maintain proper well spacing. The off-setting surface owner waiver has been previously sent to the COGCC.

If you have any questions, please contact me at 970-737-1073.

Thank you,
