Re: No further Action Request –  
Williams Production RMT Company  
Production/ Reserve Pit Closure

Notice of Completion Report  
Clough RMV 8-16  
Remediation # 4870  
Garfield County, Colorado

Dear Mr. Rowe,

Colorado Oil and Gas Conservation Commission (COGCC) staff has reviewed the Notice of Completion Report submitted by HRL Compliance Solutions Inc. for Williams on February 10, 2011 for the referenced site. Consideration was given to background arsenic concentrations. Based on review of data presented, it appears that no further action is necessary at this time at this site. However, should future conditions at the site be discovered of contaminant concentrations in soils exceeding COGCC standards or if groundwater is found to be significantly impacted, COGCC may require that further investigation and/or remediation be conducted.

The remediation project has been closed in the COGCC database with the respective Form 27A. If you require any additional information, please call me at (970) 625-2497.

Sincerely,

*Carlos Luján for*
