Comment:

While drilling surface hole at 125', the drilling assembly got stuck at 82'. A 38' fish (hammer assembly) was left in the hole. Conductor (66') and surface hole (59') were later cemented to the surface. A Well Abandonment Report (Form 6) was also filed. Attached find the cement report on the conductor casing. Plugged w/ 40 sx cement.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
