

## **Facilities List**

N. Parachute EF P27 595

### **Drilling**

- 30 Wells – one for injection only
- 1 Steel cuttings bin
- 1 Cement pit
- 4 Water tanks
- 1 Gas pipeline
- 4 Electric motors
- 1 Water pipeline
- 3 Gas or diesel motors
- 3 Electric generators
- 1 Flare stack and flare ditch
- 1 Fuel tank

### **Completions**

- 30 Wells – one for injection only
- 100 Water tanks total. 30 tanks will remain on location for 60 days after completion
- 1 Gas pipeline
- 1 Water Pipeline
- 1 Flare
- 28 Separators; on location for a span of 60 days during completion
- Gas or diesel motors:
  - Fracing – 13 on location for 1 weeks
  - Snubbing – 2 on location for 1 weeks
  - Coil tubing – 2 on location for 1 weeks
  - Water – 1 on location for 60 days

### **During Production**

- 30 Wellheads – one for injection only
- 2 Gas pipelines – one for gas, one for gaslift
- 12 Meter houses
- 4 water tanks
- 1 Injection/filtration skid
