Arthur,

Noble agrees with the changes below.

Thanks  
Jan

Subject: Scholfield State A 36-69HN Tank 2A Document #400133303, Noble

---

Jan,

I originally sent this to Mari but I guess she is on vacation.

The COGCC is reviewing the Form 2A (#400133303) for the Noble Scholfield State A 36-69HN location, located in the NWNW Sec 36 T6N R64W Weld County, Colorado. The COGCC requests the following changes regarding the data submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA).

1. Land use: The COGCC requests that the Land use be changed to Irrigated Crop Land. Aerial photos indicate the location was likely irrigated crops prior to the construction of the Scholfield State A 36-04X pad being constructed. The reference area information should also be removed from the Form 2A if the Land Use is changed to cropland.

2. COAS:

Operator must implement site-specific best management practices in accordance with good engineering practices, including, but not limited to, construction of a berm or diversion dike, site grading, or other comparable measures, sufficient to protect the concrete irrigation ditch located 331 feet north of the oil and gas location from a release of drilling, completion, produced fluids, and chemical products.

If you have any questions or concerns please feel free to contact me.

Thanks,

Arthur
