Subject: GARDEN CREEK 22-30H - COGCC review Form 2A (Doc 400141951) for EOG Resources

---

Hi Nanette,

The COGCC is reviewing the Form 2A oil and gas location assessment for the GARDEN CREEK 22-30H well location in the SESE Sec30 T11N R62W, Weld County, and requests the following changes to the Form 2A submitted by EOG Resources:

- 1) **New Location / Amend:** Since there really is no change in the proposed overall surface disturbance at this location, a Form 2A was not necessary for this location. However, since the new Form 2A includes differences in land use (CRP vs Dry Land) and indicates closed loop drilling where the previously approved Form 2A did not, we can process and approve this Form 2A for an amended location. Therefore, please approve me changing the Form 2A from "New Location" to "Amend Location 416692".
- 2) **Attachments:** Since this Form 2A amends a previously approved location, only attachments with changes are necessary. Most of the attachments are not substantially different, except the Location Drawing, which contains more extensive information. Therefore, with EOG's approval, COGCC will delete the following attachments from this Form 2A: NRCS Map Unit Desc, Access Road Map, Hydrology Map, Location Pictures.

Please contact me with any questions regarding this Form 2A.

Best Regards,
