RE: Kaufman pad 3  
SWNW Section 30, Twp 6S, Rge 91W  
Notification to Public Water Supply Systems

Dear Mr. Erion:

In compliance with Colorado Oil and Gas Conservation Commission (COGCC) Rule 303.d.(3).N and Rule 317B, Bill Barrett Corporation (BBC) would like to notify you of the subject oil and gas location. This pad is proposed to be located within the intermediate and external buffer zones of Rule 317B, with all pits located in the external buffer zone. Attached are a hydrology map and a Rule 317B map for your review. Per Rule 317B.d.(5) and Rule 317B.e.(3), operators are required to send notification to potentially impacted Public Water Systems within fifteen (15) stream miles downstream of the Drilling, Completion, Production and Storage ("DCPS") Operations prior to commencement of new surface disturbing activities at the site. Please note that Rule 317b.d requirements will be met appropriately for the DCPS operation.

Please be advised that, as required by COGCC Rule 317B, BBC has an emergency response plan in place to protect the City of Rifle's Public Water System.

If you have any questions, please contact Doug Dennison (BBC West Slope Government Affairs Manager) at 970-270-2853 or Scot Donato (BBC Manager of Environmental Health & Safety) at 303-312-8191.

Sincerely,

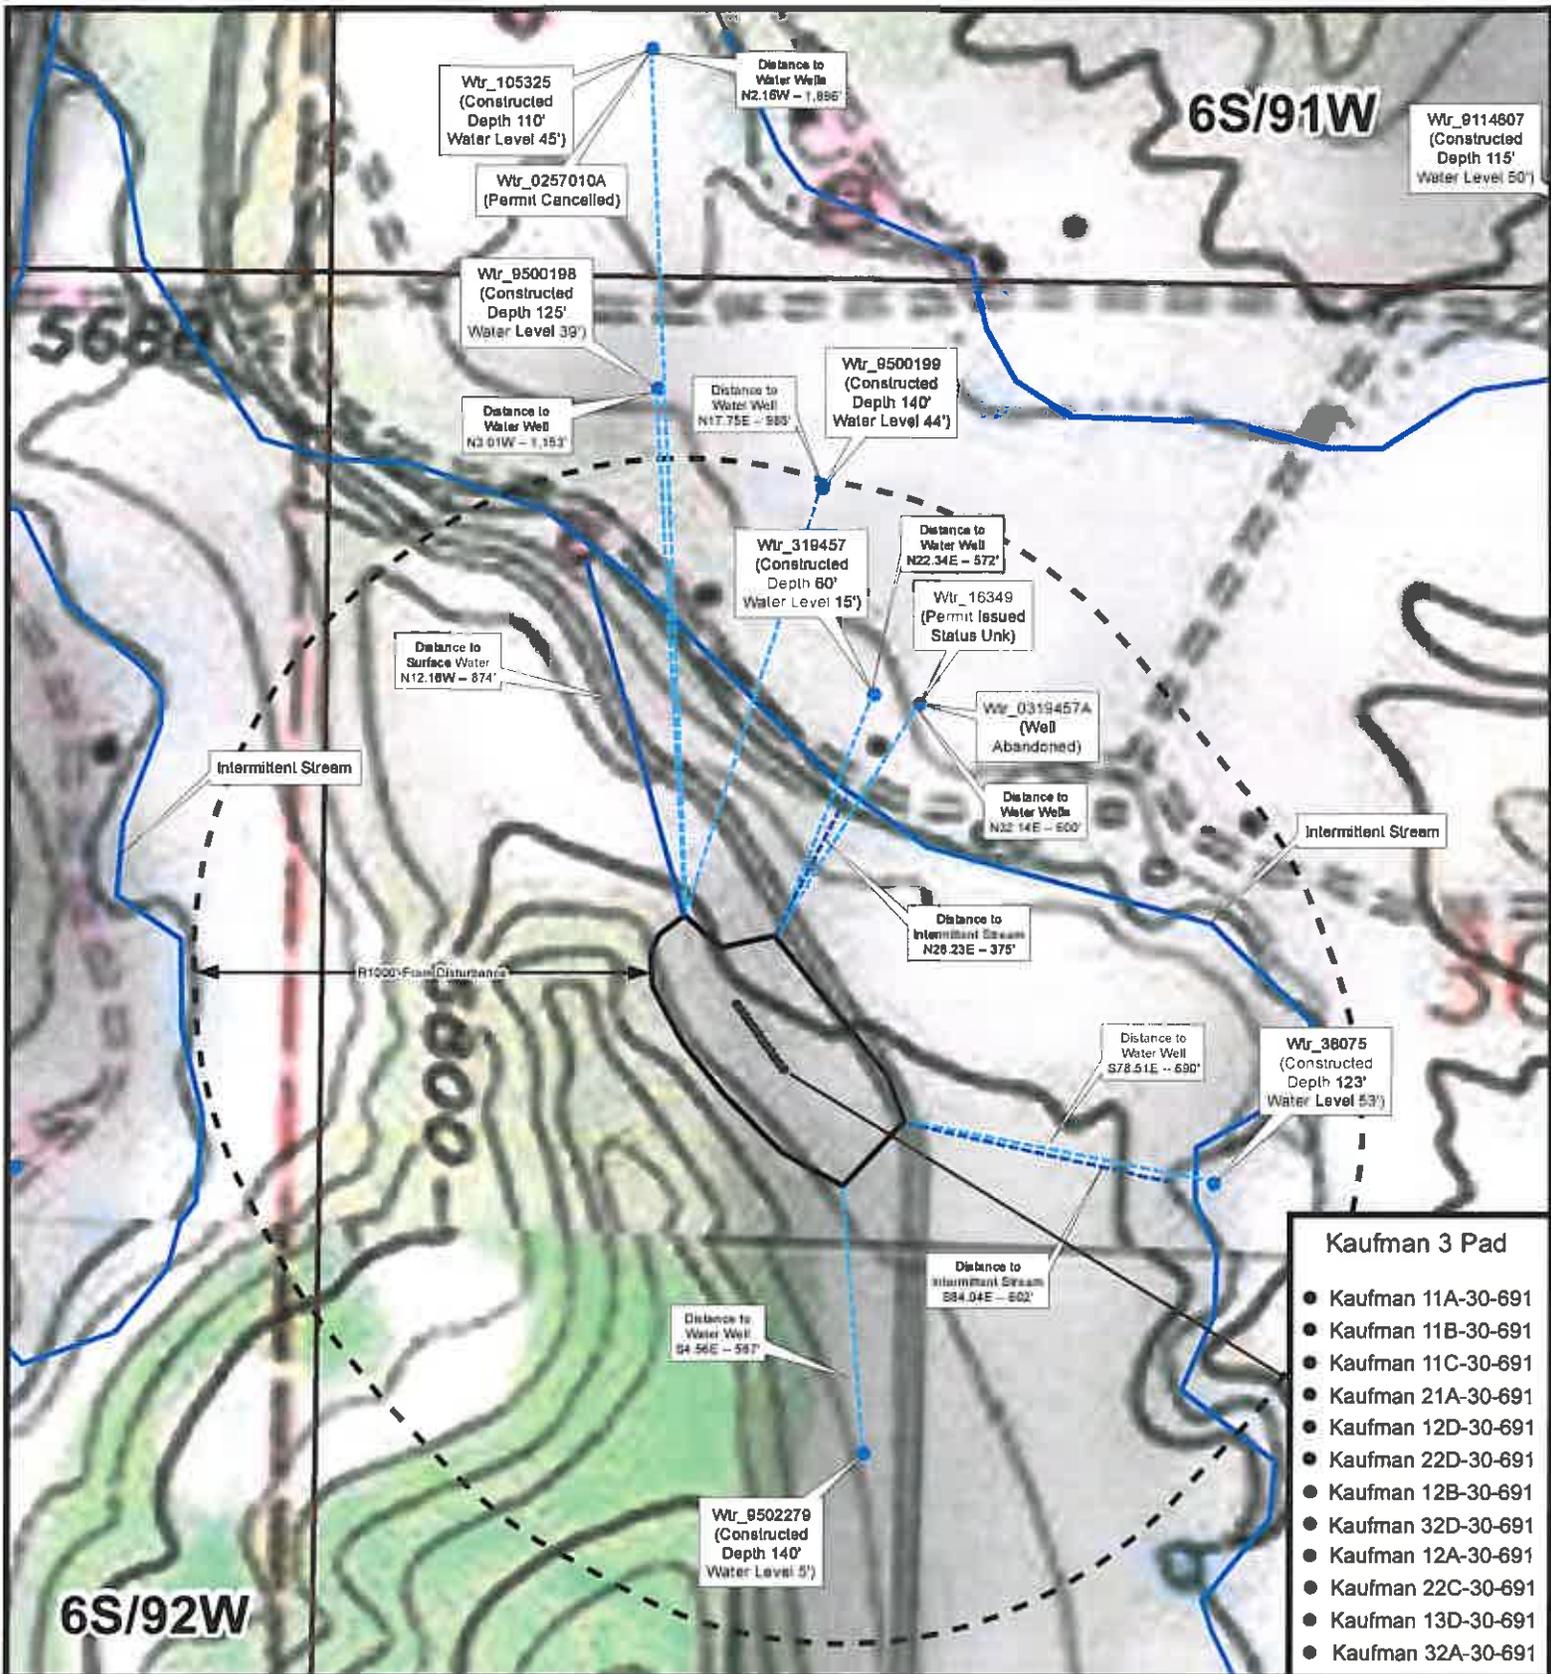

A handwritten signature in black ink that reads 'Valerie Walker'. The signature is written in a cursive, flowing style.

Valerie Walker  
BBC Permit Analyst
