Justin,

The COGCC is reviewing the Form 2A (#400162068) for the Noble Dinner PC E14-65HN tank location, located in the SWSW Sec 14 T6N R65W Weld County, Colorado. A review of the information provided by Noble indicates that the area has very shallow groundwater and is considered a sensitive area. Due to shallow groundwater is Noble planning on lining the tank battery? If so please provide a statement to that effect that I will put in the BMP tab.

If you have any questions or concerns please feel free to contact me.

Thanks,

Arthur
