NE/4 of Section 36, T 7 North, Range 66 West
Weld County, Colorado

Dear Director:

Synergy Resources Corporation respectfully requests that the director grant an exception to Rule 318A(a). Under the Colorado Oil and Gas Conservation Commission's Rules and Regulations, it requires we drill from the five legal "windows" for our Oil and Gas Exploration on the said property.

At the request of the surface owner, North Haythorn Farms, we are submitting permits applications with all five locations being drilled from one central "well pad" with the bottom holes being within the five legal windows. The surface owner requested this location as it is the bottom of a flood irrigated field and it is the best location for their future land use.

Please contact Craig Rasmuson at SRC if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'C. Rasmuson', written in a cursive style.

Craig Rasmuson
Manager of Land and Field Operations
