Subject: RE: Wilson 11-30 Form 19 NFA Approval Spill #2214611

Brandon,

Based on the information submitted, COGCC approves of the no further action request related to the spill and remediation at the subject site. The associated spill report has been changed to closed status in COGIS. Please keep a copy of this email as verification of COGCC concurrence with the closure request.

Thank you,
John

Subject: Wilson 11-30 Form 19 NFA Request

Hi John:

Attached please find a Form 19 and supporting documentation for a dumlaine release associated with equipment upgrades at the above referenced subject site located in the C/NW Section 30-T7N-R63W. Confirmation soil samples were collected and analytical results indicate concentrations are below the Table 910-1 Concentration Levels. Groundwater was not encountered at the site.

As a result, PDC is requesting a No Further Action determination for this site.

Please call if you have any questions regarding this site, thank you.
