Subject: RE: Mondt #1 Water Incident - Spill #2214613

Tom,

COGCC has assigned spill tracking #2214613 to the release at the referenced location. Please submit a Form 27 with soil disposal documentation, monitor well installation and groundwater sample results when you have completed that work. Reference the spill number on future correspondence related to this release.

Thank you,
John

Subject: Mondt #1 Water Incident

John,

We had a water line incident at our Mondt #1 location. It was mostly berm contained with about 1 BBL escaping through a rodent hole in the berm wall. I was hoping we could report it all on the form 19 from LT Environmental but we ran into shallow ground water and the results on the water came back slightly elevated for Benzene. We are treating the water and going to install the monitoring wells and start sampling. The soil results came back clean.

Thanks,
Tom Peterson
