Hi Michael and Dave.

Quicksilver agrees to the BMP's you have requested.

Dave - do you want us to type them into the Form 2? (it's still in draft) or do you want to attach them to the 2A. I'm confused on how this process works - so please enlighten me on what would be easiest. Thanks.

**Sent:** Wednesday, June 29, 2011 02:56 PM  
**To:** Cindy Keister  
**Subject:** Fwd: Quicksilver James Stehle 14-15 permit application

Can they add these stips?

**Subj:** Quicksilver James Stehle 14-15 permit application

Lisa,

*I am in the process of reviewing the Form 2A for the well pad location -Quicksilver James Stehle 14-15.*

*There are no BMPs attached to the application.*

*The well site is located in COGCC mapped elk winter concentration area.*

*The CDOW recommends that you follow the BMPs listed below. If these BMPs are acceptable to you please let me know and copy Dave Kubeczko at COGCC; his email is [Dave.Kubeczko@state.co.us](mailto:Dave.Kubeczko@state.co.us)*

*He can then attach the BMPs to your permit and your permit can move forward from the CDOW standpoint.*

- *Where oil and gas activities must occur in elk winter concentration areas, conduct these activities outside the time period from December 1 through April 15.*
- *Restrict post-development well site visitations to between the hours of 10:00 a.m. and 3:00 p.m. and reduce well site visitations between December 1 and April 15 in elk winter range.*
- *Establish company guidelines to minimize wildlife mortality from vehicle collisions on roads.*
- *Close and immediately reclaim all roads that are redundant, not used regularly, or have been abandoned to the maximum extent possible to minimize disturbance and habitat fragmentation.*
  - *Avoid aggressive non-native grasses and shrubs in elk habitat restoration.*
  - *Reclaim elk habitats with native shrubs, grasses, and forbs appropriate to the ecological site disturbed.*

*Please let me know if you have any questions or would like clarification of the BMP language.*
