RE: Rule 318.A(c) Exception Location Request

C7B Well: 429' FSL, 431' FEL, SESE Sec. 34-T7N-R63W, Weld County, Colorado

Dear Mr. Neslin,

High Sierra Water Services, LLC (HSWS) respectfully requests that the Director grant an exception to Rule 318.A(c) for the above well. This well is spotted as above in order to maximize the potential for future on-site injection facility operations and to minimize surface disturbance. Per COGCC Rule 318.A(c), a GWA well surface location shall not be less than 50' from an existing well when outside of a GWA window. This surface location is greater than 50' from an existing well and outside of a GWA window for the above specified reasons. The applicant is the surface owner and has consented to the location in writing via the attached waiver.

Should you have any questions please contact the undersigned at 970-669-7411 or 720-560-2700.

Sincerely,

Clayton L. Doke
