15. Comments:

All eleven (11) wells on this drilling pad are closer to the over-head power line than the COGCC regulations allow. As per numerous conversations with Thom Kerr - the COGCC has verbally agreed that Ensign Rig 33 - 104' tall - can drill these locations. Aims Community College sold the property to a third party (WTM Land, LLC) with the full intent to have their minerals, Greeley Country Club's minerals and the surrounding residential lots drilled and production of oil and gas maximized.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
