Dear Director,

Synergy Resources Corporation respectfully requests the Director approve an exception to Rule 318A to allow the SRC-AIMS and SRC GCC well(s) listed above, to be drilled at the above referenced location. Rule 318A(a) of the Colorado Oil and Gas Commission's Rules and regulations requires wells to be drilled/completed in a square with sides four hundred (400) feet in length, the center of which is the center of any quarter/quarter section or in the center of any quarter section with the four sides being (800) feet in length. The well being permitted is an exception location at the request of the surface owner.

Synergy Resources Corporation has obtained written permission from the surface owner. Should you have any questions, please contact Craig Rasmuson at (970) 737-1073. Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink, appearing to read 'C. Rasmuson', is written over the word 'Sincerely,'.
