

EnCana N. Parachute DH05-20 G29 595 API # 05-045-20025

The Vertical Pilot is the 045-20025-00.

While attempting to log the Vertical Pilot the logging tool was dropped.

Verbal approval from Dave Andrews allowed EnCana to plug back and sidetrack. 2/9/11

Therefore, the Vertical Pilot goes from the 045-20025-00 now becomes the 045-20025-01. Sundry and form 2 already submitted.

So the previously submitted and approved Horizontal APD was 05-045-20025-01 approved 10/15/10 will become the 045-20025-02 BUT EnCana must now submit a new ADP (to be expedited due to exigent circumstances) for the Horizontal well to be the 045-20025-02. This ADP will more than likely have identical information as submitted on the original Horizontal, with the comment that this was originally approved as the 045-20025-01 but due to the necessity for the sidetrack of the 045-20025-00 the horizontal will become the 045-20025-02.

045-20025-00 UNTIL FISH THEN BECOMES 045-20025-01  
↓  
MUST SUBMIT A FORM 5  
FOR THE ORIGINAL VERTICAL.

045-20025-01  
↓  
SUNDY AND FORM 2 SUBMITTED 2/24/11

HORIZONTAL 045-20025-01 NOW BECOMES 045-20025-02

↓ MUST SUBMIT A "NEW" FORM 2  
FOR HORIZONTAL WELL  
SEE COMMENT ABOVE.
