**Subject:** FW: Kline 21-23

Quicksilver approves the attached wildlife BMP's.

**From CDPW Attachment: Kline21-23.doc:**

### Elk winter concentration area

Where oil and gas activities must occur in elk winter concentration areas, conduct these activities outside the time period from December 1 through April 15.

- 1) Conduct post-development well site visitations to between the hours of 10:00 a.m. and 3:00 p.m. and reduce well site visitations between December 1 and April 15 in elk winter concentration areas.
- 2) Establish company guidelines to minimize wildlife mortality from vehicle collisions on roads.
- 3) Gate single-purpose roads and restrict general public access to reduce traffic disruptions to wildlife – per surface owner direction.
- 4) Reclaim elk habitats with native shrubs, grasses, and forbs appropriate to the ecological site disturbed.
- 5) Avoid aggressive non-native grasses and shrubs in elk habitat restoration.
