Subject: Land Board Approval For Access to State Tract 6N-91W, Section 34, Moffat County.

Dear Vince:

This letter is to acknowledge that you, your staff, your contractors and agents have permission from the State Board of Land Commissioners to access the subject state section.

This grant of access is for the purpose of studying the geology, the use of seismics, the drilling of stratigraphic test holes and the injection of carbon dioxide for testing purposes.

Management at Trapper Mine is supportive of this four-year project.

If you have any questions please contact me at extension 3313.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark W. Davis".
