Date: Monday, October 17, 2011 2:01:23 PM

Good afternoon Bill:

As you can tell from the e-mails below, I have totally messed up on the McBride-Michel "A" #1-31 Form 2 and 2A. We have Form 2 straightened out, but just realized that Form 2A information for Section 7. Surface Owner information is incorrect also. This is what needs to be changed in order to correct this information.

No check marks on: The surface owner is: committed to an oil and gas lease and is the executer of the oil and gas lease

No check mark on: The right to construct the location is granted by: oil and gas lease.

Surface damage assurance if no agreement is in place: Blanket bond should be marked with Surety ID #: 20010165

Thanks for your help and sorry for the inconvenience.

Steve:

I just realized this will make Form 2A Section 7. Surface Owner information incorrect also. What do I need to do to correct Form 2A so that it will be the same as Form 2?

Thanks....

Tannis

Steve:

I have corrected the items below for Form 2 and have re-submitted.

Sorry, I just pulled the wrong lease info for this well but have it straightened out now.

Thanks.

Good Morning,

I have sent the above form back to draft. Please make the following corrections before resubmitting the form.

- The location of the well bore does not match up with the mineral lease you provided in #23.
- For number 22 if the surface owner is not the mineral owner how is there signature on the lease? Please note that if the surface owner is a partial mineral owner then you can put yes for #22.
- If you plan on bonding on please select \$25,000 Blanket for #22b and select No for #22a.

I am not quite sure exactly what you are trying to do for #22 so please contact me with any questions prior to resubmitting the form.
