Jane,

I have had a chance to look at what appears to be the ref. well site and see no problems from a surface site and access location. There have been recent wells air drilled through the Mancos not too far away with little problems.

I may follow with some after the fact comments, but now waive the 20 day response period with this e-mail correspondence. I believe from the conversation with you earlier today and with Thom this afternoon that COGCC approval of both the form 2 and 2A will come before Monday.

Thank you for your information and forward a copy of this email to Thom. Let me know if additional information is needed. Bruce Bertram, Delta County LGD
