**Re: Bondad 33-10 #27 Exception Location
Section 12-33N-10W, La Plata County, CO**

To Those Addressed Above:

Williams Production Company, L.L.C. ("Williams") intends to apply for a permit to re-complete the Bondad 33-10 #27 ("Well"), which is currently producing from the Mesaverde formation, to test interval(s) within the wellbore located below the producing zone(s). As illustrated on the attached map, the proposed wellbore re-completion would be located approximately 145' from the lease line of the lease dated February 8, 1946 between Robert McCulloch, et ex, Lessor, and Paul L. Davis, Lessee, covering the NE/4 NE/4, Section 12, 33N-10W, La Plata County, Colorado ("Lease"). Our records indicate that you are a current mineral interest owner under the Lease.

The rules promulgated by the Colorado Oil and Gas Conservation Commission ("COGCC") require that a well completed at a depth greater than 2500' subsurface be at least 600' from any lease line absent either: 1) consent from the mineral owner toward whom the well location is proposed to be moved or 2) a variance granted by the COGCC allowing for the exception location. Williams respectfully requests that you, as owner of the mineral interest underlying the Lease, waive objection to the proposed re-completion of the Well. This agreement and the rights granted hereunder shall be binding upon and inure to the benefit of the respective heirs, successors and assigns of the parties hereto and shall be a covenant running with the land.

Please signify your agreement to waive objection to the proposed re-completion of the Well by signing in the space below. Thank you and should you need anything further or have any questions concerning the above, please feel free to contact me at (918) 573-5653 or joey.stauffer@williams.com .

Sincerely,

Joey Stauffer
Landman

I hereby agree to waive objection to the re-completion of the Bondad 33-10 #27 well, as illustrated on the attached map, at a location of less than 600' from the property line of the Lease, under which I am a mineral interest owner.
