**Subject:** SGU N22 8508B-21 N22 496 Abandonment (API 05045206650000)

OK D.A.

Betty and Dave,

This is just a followup email from the verbal approvals you gave me earlier today. We drilled the SGU N22 8508B-21 N22 496 (API 05045206650000) to 1419' and believe we could have collided with another well on the pad based on surveys.

The plan going forward is to cement the well to surface using the cement slurry on location for the surface. I will follow up with the necessary sundry forms from my permitting department early next week with the cement details and a wellbore diagram of the abandoned surface location.

If you have any questions please give me a call, thanks.
