Subject: NFA for 55 partially-buried produced water tank closures

Based on review of information presented in the Form the sites listed below, it appears that no further action is necessary at this time. Please retain a copy of this email as verification of COGCC concurrence with the closure requests. However, should future conditions at the site(s) indicate contaminant concentrations in soils exceeding COGCC standards or if ground water is found to be significantly impacted, then further investigation and/or remediation activities may be required at the site(s).
