**Subject:** Hiawatha 4-3 and 4-36 Wells

Dear Alex,

Thank you and Mr. Gowen for taking my call on Tuesday. Pursuant to our discussion the following was requested by GADECO for the above wells:

1. Extension of time until February 29, 2012 to remove all material that was transported to the unauthorized facility in Utah and dispose of the material at a commercial disposal facility. As discussed we were told by the landowner in Utah that he did have permission from a Mr. Rob Powers, with the Utah DEQ Hazard Waste, to take and farm the tailings from the Hiawatha wells. If the Utah landowner is not able to obtain the necessary permits from the State of Utah we will remove the tailings. We are currently looking for another site and may have one in Wyoming that is permitted.
2. Extension of time until February 29, 2012 to file Form 27 providing an account of the disposition of the E&P waste and waste manifests shall be submitted to the COGCC.
3. The above extension has also been requested by Tim Dobransky with Olsson Associates in order to complete and file an accurate Form 27 report.

Thank you for your consideration in the above matters.

Regards,

W. Gene Webb
