Bill,  
You are correct, it should read 660'. Sorry for the typo.  
Let me know if you have any other questions.  
Thank you,  
Tim

Hey Tim,  
Trying to work the McElvain Bullseye 11.  
Issue: line #24 states distance to the nearest mineral lease line as 1654 feet.  
It appears from the furnished lease map that it should be closer to 660 feet.  
Please review and clarify.  
Thanks,  
Bill
