Dave K-

Attached are the bmp document that Samson sent me. The wildlife stuff looks okay to me. I've asked Samson for the commitment below, but haven't heard back from David M, yet. I'm out of the office the rest of the day, so I'm going to log into e-forms, reference this bmp doc. I trust that you will attached the bmps to the permit and this correspondence. Let me know if you have any questions,

Thanks,

brian

David- This looks fine. The only thing that I would ask is that Samson includes language that says they will make concerted attempts to avoid construction, drilling and workover activities from Nov. 15 –March 15. If such activities are unavoidable then Samson will initiate the survey protocol as outlined you document.

Does that sound reasonable?

Brian,

Here are the BMP/COAs you were waiting for .

Thanks for your support.

David Myers
