Subject: RE: Olson 13,14,23,24-29 Form 19 -Spill Tracking #2222956
Date: Tuesday, February 21, 2012 9:07:40 AM

Brandon,

COGCC has assigned spill tracking #2222956 to the release at the subject location. Please reference the spill tracking # when you submit the Form 27 to address the residual soil impacts. Thank you,

John Axelson, P.G.

Subject: Olson 13,14,23,24-29 Form 19

John:

Attached please find a Form 19 and supporting documentation for the subject site located in the SESW Section 29 – T4N – R67W. Soils were impacted at this site from a historical dump line release. Approximately 100 cy of impacted soil was excavated and removed from the site. Two rounds of soil samples were collected and lab results indicate soil samples are above COGCC Table 910-1 standards for benzene and TPH. Groundwater was not impacted at this facility. A Form 27 will be submitted under separate cover outlining our remedial approach for this site.

Please call if any questions. Thank you!
