Dear Mr. O'Hearn,

Colorado Oil and Gas Conservation Commission (COGCC) staff has reviewed the Notice of Completion Reports submitted by Enertia Consulting Group, LLC in January, 2012, on behalf of ENTEK GRB, LLC, for the referenced sites. Based on review of data presented, it appears that no further action is necessary at this time at this site. However, should future conditions at the site be discovered of contaminant concentrations in soils exceeding COGCC standards or if groundwater is found to be significantly impacted, COGCC may require that further investigation and/or remediation be conducted.

The remediation projects will be closed in the COGCC database with the respective Form 27As. Additionally, REM 6157 (Robidoux 13-15) will be flagged as closed (CL) in the scout card since this one was a permitted pit and is therefore identified in the GIS map. If you require any additional information, please call me at (970) 625-2497.

The interim pit closure report for FOCUS RANCH UNIT FEDERAL # 3-1 was reviewed and approved pending final reclamation. The project will be closed when the final report is submitted.

Sincerely,

*Carlos Luján for*
