## SUNDRY NOTICE

Submit original plus one copy. This form is to be used for general, technical and environmental sundry Information. For proposed or completed operations, describe in full on Technical Information Page (Page 2 of this form.) Identify well or other facility by API Number or by OGCC Facility ID. Operator shall send an informational copy of all sundry notices for wells located in High Density Areas to the Local Government Designee (Rule 603b.)

5. DESCRIBE PROPOSED OR COMPLETED OPERATIONS

OXY USA WTP LP (Oxy) is requesting to keep the lined storage pond (Pond 10 N) open beyond the November 17, 2012 pit permit expiration date for an additional 12 months. This storage pond was approved November 17, 2009 to support multiple wells holding either produced or fresh water for E&P activities support.

Extending the pit expiration date would allow Oxy adequate time to determine if the pit would be needed beyond November 17, 2013.

Oxy would opt for one of the following actions prior to the revised expiration date of November 17, 2013.

- Based on Pond 10N's use primarily as a fresh water storage pond for drilling and completions activities, Oxy may request an additional twelve month extension to continue to support these activities.
- May submit a permit application to convert the pit to a centralized E&P waste management facility.
- Close and remediate the pit.

Oxy will continue to monitor the storage pond fluid level to ensure adequate freeboard is maintained.
