RE: Exception Location Request to Rule 318A(I).c.(2)
Diane 8-6-28
SWSE of Section 28, T2N, R66W
Weld County

Dear Mr. Kerr:

Pursuant to COGCC Rule 318A(I).a and 318A(I).c., Encana Oil & Gas (USA) Inc. ("Encana") hereby requests administrative approval for an exception location as requested in COGCC Rule 318A(I).c.(2) which sets forth that when the operator is requesting a surface well location greater than fifty (50) feet from a well, the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively.

Encana is a mineral interest owner and wishes to drill the subject well more than 50 feet from an existing well and has obtained a signed Waiver, as required and enclosed for your file, from the Surface Owner approving the location, as proposed, more than 50' from an existing well.

If you have any questions or need additional information, please contact me at (720) 876-5339.

Sincerely,
Encana Oil & Gas (USA) Inc.

Township 2 North, Range 66 West, of the 6th P.M.
Section 28: SE/4
Weld County, Colorado

Dear John Vandemoer:

Encana Oil & Gas (USA) Inc. ("Encana") staked the Diane 34-28, Diane 8-6-28, and Diane 6-4-28 wells at the Surface Locations noted above as measured from Section 28, Township 2 North, Range 66 West (see attached Well Location Certificate). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's (COGCC") Rule 318A(I), known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule (Except the City and County of Broomfield). Rule 318A(I).c.(2) states:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

The wells were staked at the following locations from the existing Diane #1 well:

Diane 34-28: 108' southwest
Diane 8-6-28: 108' southeast
Diane 6-4-28: 107' south

All wells are located in the same drilling window. As these locations were staked with your consent and approval, Encana respectfully requests your consent to an exception location for the Diane 34-28, Diane 8-6-28 and Diane 6-4-28 wells by waiver of the COGCC Rule 318A(I).c.(1).
