Re: Exception Location Waiver (Surface Location Only)
Quicksilver Resources Inc. Stoddard 32-30 Well
Lot 11 (SWNE) of Section 30-T6N-R90W
Moffat County, Colorado

Dear Mr. and Mrs. Stoddard:

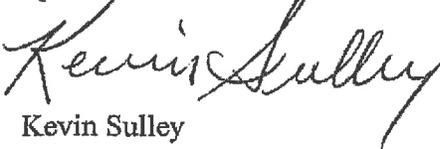

The purpose of this letter is to request that you grant to Quicksilver Resources Inc. a waiver to the setback requirement of Colorado Oil and Gas Conservation Commission Rule 318.c, which establishes the setbacks, in the absence of an approved spacing order, for wells drilled in the State of Colorado. Among other things, Rule 318 provides that there be a minimum of 1,200 feet between wells that are drilled to a common source of supply at depths of 2,500 feet or greater, and Rule 318 does not draw a distinction between the surface hole location and the bottom hole location.

Due to topographic considerations, Quicksilver Resources Inc. desires to locate the surface of the subject well at a location that is 1,120.48 feet from the surface location of the existing Stoddard 33-30 well, rather than the statutory 1,200 feet. Please be advised that Quicksilver fully intends to deviate the well bore in the subject well to the extent necessary to assure that the well will be in compliance with statutory setbacks at the point the well bore enters the target productive zone. Thus, Quicksilver is seeking only a waiver that would permit us to surface the subject well at distance that would be slightly less than 1,200 feet from the nearest existing well head.

If are agreeable to granting the requested waiver, please so indicate by signing in the spaces below and thereafter returning one fully executed copy of this letter to the undersigned at Quicksilver Resources Inc. I thank you in advance for your cooperation in this matter.

Sincerely,

Quicksilver Resources Inc.

Kevin Sulley
Director of Land
