Arthur-

Ok. Do I need to do anything, or will you make the changes noted?

Mat

Matt,

The COGCC is reviewing the Form 2A (#400287097) for the Vecta Belford 24 - 17 location, located in the SESW Sec 17 T13S R47W Cheyenne County, Colorado. The COGCC requests the following changes regarding the data submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA).

Distance to surface water

Based on a review of aerial photos it appears that there is a surface water feature approximately 1,580 feet east of the location. The 2A should be amended to 1,580 feet.

Sensitive Area

Due to the presence of shallow groundwater the location is considered a sensitive area. The sensitive area tab has been changed to yes.

If you have any questions or concerns please feel free to contact me.

Thanks,

Arthur
