**WELL ABANDONMENT REPORT**

This form is to be submitted as an Intent to Abandon whenever an abandonment is planned on a borehole. After the abandonment is complete, this form shall again be submitted as a Subsequent Report of the actual work completed. The approved intent shall be valid for six months after the approval date, after that period, a new intent will be required. Attachments required with the Intent to Abandon are wellbore diagrams of the current configuration and the proposed configuration with plugs set.  
 A Subsequent Report of Abandonment shall indicate the actual work completed. Attachments required with a Subsequent Report are a wellbore diagram showing plugs that were set and casing remaining in the hole, the job summaries from all plugging contractors used, including wireline and cementing (third party verification) and any logs that may have been run during abandonment.

Type of Cement and Additives Used: \_\_\_\_\_  
Flowline/Pipeline has been abandoned per Rule 1103  Yes  No \*ATTACH JOB SUMMARY

#### Technical Detail/Comments:

This well was acquired from Rosetta Resources effective 04/01/11. Rosetta Resources welded metal plate on top of casing but did not keep records of any cement work. Attached are the photos used to help determine the location was plugged.

Augustus Energy began investigating the condition and status of the well by contacting A.) Rosetta Resources prior to purchasing the well and B.) COGCC in June 2011. Rosetta Resources filed the Permit Application and nothing else. At COGCC's request Augustus Energy filed a Form 5-Completion Report (Preliminary-Surface Casing only) and Form 6-Notice of Intent to Abandon Doc # 400255101. Augustus found that remediation of the wellsite had been initiated but that no wellhead was visible. Eventually the wellhead was located below the surface, exposed, and photographed. There is no record of cement work related to plugging the well. COGCC deliberated and considers the well to be plugged and abandoned: the depth of the well, local stratigraphy, adjacent well logs, aquifers, and topography were assessed in the evaluation. Bob Koehler-COGCC

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
