**Subject:** Waiver of 20 day comment period  
**Importance:** High

David,

We are currently drilling the 2<sup>nd</sup> well on a four well pad. Carrizo is requesting you waive the 20 day comment period per rule 303 I (2). We have a signed waiver from the land owner. We submitted the Form 2 for the 3<sup>rd</sup> well 6/20/2012.

The well is located:  
Pergamos 2-4-34-7-60  
SWSE Section 4 T7N R60W 6<sup>th</sup> PM Weld County Colorado  
Location Name Pergamos 4-44-7-60 Location ID 423984  
Form 2A Doc Number 400266900 Approved

**RULE 303 I Special circumstances for permit issuance without notice or consultation.** The Director may issue a permit at any time in the event that an operator files a sworn statement and demonstrates therein to the Director's satisfaction that:

(2) Due to exigent circumstances (including a recent change in geological interpretation), significant economic hardship to a drilling contractor will result or significant economic hardship to an operator in the form of drilling standby charges will result.

**305 c Comment period.** The Director shall not approve the Form 2A, or any associated Form 2, for twenty (20) days from posting pursuant to Rule 305.b, and shall accept and post on the Commission's website immediately upon their receipt any comments received from the public, the local governmental designee, the Colorado Department of Public Health and Environment, or the Colorado Division of Wildlife regarding the proposed oil and gas location. The Director shall extend the comment period to thirty (30) days upon the written request during the twenty (20) day comment period by the local governmental designee, the Colorado Department of Public Health and Environment, the Colorado Division of Wildlife, the surface owner, or an owner of surface property who receives notice under Rule 305.e. The Director shall post the extension on the COGCC website within twenty-four (24) hours of receipt of the extension request.

Carrizo is requesting this waiver because the rig is on location drilling the 2<sup>nd</sup> well of a 4 well pad and it would be very costly to move the rig to another location and then back to this location.

Carrizo would like to spud this well Friday June 29<sup>th</sup>, 2012 . The Location 2A is already approved.

Thanks You in advance: Please reply back to all ASAP with your approval.
