Arthur,  
As requested, attached is the Sundance Loamy Sand document. Please add this to the Form 2A as needed. Call if you need additional input from me.

Best regards,  
Rod Vaughn

Rod,

The COGCC is reviewing the Form 2A (#2237217) for the Bayhorse Petroleum Trade Winds South 1-27 location, located in the NWSW Sec 27 T18S R47W Kiowa County, Colorado. The COGCC requests the following changes to the information provided and acknowledgement of conditions of approval prior to passing the Oil and Gas Location Assessment (OGLA).

Soils

The location has two soil types within the proposed disturbed area, the reported Bijou-Valent Sandy Loam and the unreported Sundance Loamy Sand. The Sundance Loamy Sand should be added to the form 2A and Bayhorse Petroleum will need to provide the NRCS soil report for the additional soil type.

Thanks,

Arthur
