Arthur,

Please find attached the requested topographic map showing the pit location in order to complete the processing of the form 15 for Winn. Let me know if this map will suffice and if you need any additional information don't hesitate to contact me.

Respectfully,
Julie

Julie,

We need a topographic map showing the pit location in order to complete processing the form 15 for Winn.

Thanks,

Arthur

Subject: RE: Slanovich 34A-27 Form 15 Evaporation bbl/day

Area of reserve pit = $95' \times 35' = 3325SF$
Evaporation rate = $12'' / \text{month}$
Evaporation volume in CF = $3325SF \times 1' / \text{month} = 3325CF / \text{month}$
Evaporation volume in BBL = $3325CF / 4.144 CF/BBL = 802.36 BBL / \text{month}$
Evaporation volume in BBL/Day = $(802.36 BBL / \text{month}) / (30 \text{ Days/month}) = 26.75 BBL/Day$

Julie,

Could you please supply the Calculations that were done for the evaporation rate?

Thanks,

Arthur

Arthur,
The evaporation rate for the Slanovich reserve pit is calculated to be 26.75 BBL/Day,
Have a great weekend,
Julie
