Dear Thomas and Sarah Francis:

Encana Oil & Gas (USA) Inc. ("Encana") staked the Dowdy wells at a surface location as indicated above (see attached survey plat). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's (COGCC") Rule 318A(I). known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule (Except the City and County of Broomfield). Rule 318A(I).c.(2) states:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

The wells were staked at locations 95' to 120' South West of the existing Dowdy #1 well located in the same drilling window. As this location was staked with your consent and approval, Encana respectfully requests your consent to an exception location for the Dowdy 4-2-10, Dowdy 6-4-10, Dowdy 8-2-10, and Dowdy 41-10 wells by waiver of the COGCC Rule 318A(I).c.(1).

If this meets with your approval, please sign and date both originals of the letter, keeping one for your files and returning one to the undersigned.
