Mr. Beek,

Kuenzler & Flora Reserve Corporation plans to request expedited approval from the COGCC for the well located on your family's land. As part of this process a waiver of the 20 day comment period must be obtained from the surface owners. The Chesnee #1 well is located in SENE Section 7 of Township 14 South, Range 44 West, 6<sup>th</sup> P.M., Cheyenne County, Colorado. Kuenzler & Flora has an approved permit one mile to the northeast in Section 5 of the same township for the Harley #1.

Per a Farmout agreement with Anadarko Petroleum Corporation drilling must commence prior to August 31<sup>st</sup>, 2012 on the permitted Harley #1 well. The rig is scheduled to move in August 15<sup>th</sup> to satisfy this requirement. Should the Forms 2 and 2A be approved for the Chesnee #1 in time, the rig could be moved the one mile and begin drilling immediately.

This would be the most efficient use of time and resources in our upcoming drilling plan for the area, and would in fact save significant capital over alternate well scheduling. Please sign below if you are in agreement with the waiving of the 20 day comment period, and have no issues with Kuenzler and Flora Reserve Corporation drilling on or around the first week in September.

Thank you for your time and consideration in this matter. Should you have any questions or concerns please contact me at the number or e-mail below.

Best regards,
