Tyler,

Thanks for the summary. This report is sufficient until WPX's next monthly report is due by 9/10 for the August summary.

Dave

Mr. Andrews:

Please accept my sincere apologies regarding the tardy Bradenhead pressure reporting for the NR 512-3. There was some confusion from within my company as to who would send you the report each month. Moving forward, I will be the responsible party for submitting the report to you by the 10th for the previous month.

The well was worked over the end of July, when tubing was run, and the well was turned over to Production and hooked up to SCADA August 1st. Thus, all Bradenhead records prior to 8/1/12 were observed via a gauge. Observed pressures were as follows:

Date	Bradenhead [psi]
17-Jun-12	0
23-Jul-12	0
24-Jul-12	0
25-Jul-12	0
26-Jul-12	0
27-Jul-12	0
28-Jul-12	0
29-Jul-12	0
30-Jul-12	0
31-Jul-12	0

Daily Bradenhead pressures have been recorded through SCADA since 8/1/12, and will continue to record throughout the production period. I will provide these daily numbers to you moving forward. The following shows pressures from 8/1 – 8/14:

Date/Time	Bradenhead Pressure (psi)
08/01/12	8
08/02/12	8
08/03/12	4
08/04/12	1
08/05/12	1
08/06/12	1
08/07/12	1
08/08/12	1
08/09/12	1
08/10/12	1
08/11/12	1
08/12/12	1
08/13/12	1
08/14/12	1

Please let me know if this information does not satisfy the state.

Regards,
Tyler

Importance: High

Burt,

WPX's monthly update (see Condition of Approval #3 on the attached Sundry Notice) is delinquent. It was due on 8/10. Please email your monthly update to document WPX's weekly pressure readings for July ASAP.

Thanks,

David D. Andrews, P.E., P.G.
