Arthur

Wiepking-Fullerton Energy, LLC (W-F) approves changing the data on the Form 2A that if drilling pits intercept groundwater the pit must be lined or a closed loop system used.

In addition W-F is requesting permit approval by **September 7, 2012** due to lease expirations.

Thanks

Jack Fincham
Agent for W-F

Jack,

The COGCC is reviewing the Form 2A (#400314245) for the Wiepking-Fullerton Energy Pelger #1-12 location, located in the NENE Sec 12 T13S R51W Lincoln, Colorado. The COGCC requests the following changes regarding the data submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA).

Conditions of Approval

Location may be in a sensitive area due to shallow groundwater; therefore if drilling pits intercept groundwater the pit must be lined or a closed loop system used.

Please let me know if you have any questions or concerns.

Thanks,

Arthur

If you have any questions or concerns please feel free to contact me.

Thanks,

Arthur
