35950 -

Dear Mr. Chesson:

As per *COGCC Rule 318A.e.(4)*, baseline water well sample testing is required prior to drilling the first interior infill well or boundary well within a governmental section. COGCC stamped the drilling permit for the subject well, requiring Kerr-McGee Oil & Gas Onshore LP (Kerr-McGee) to conduct water sample baseline testing in Section 26, Township 2N, and Range 65W.

The water well that qualifies for the sampling requirement for Section 26, Township 2N, and Range 65W has previously been sampled (Receipt #3615854, Permit #273435--, Section 22, Township 2N, Range 65W) by another operator. Based on these findings, Kerr-McGee is requesting a determination of NOT REQUIRED due to the fact that the water well that qualifies for Rule 318A.e.(4) sampling requirements has previously been sampled. If you agree, please sign and date the bottom of this letter and return it to me. Please contact me at 720-929-6726 if you have any questions regarding this information.

Very truly yours,

KERR-McGEE OIL & GAS ONSHORE LP

Paul D. Schneider, P.G.
Senior Staff EHS Representative
