Gentlemen,

Tekton Windsor, LLC (TW) is applying to the Colorado Oil and Gas Conversation Commission (COGCC) to drill the above referenced well at the described surface location. Colorado Oil and Gas Conservation Commission Rule 318A(l).a stipulates that a Greater Wattenberg Area (GWA) well surface location must be within a 400' by 400' drilling window centered at the center of each quarter-quarter section, or inside a 800' by 800' drilling window centered at the center of each quarter section. The above well surface locations fall outside of these windows.

Additionally, COGCC Rule 318A(l).c stipulates that a GWA well surface location shall not be less than 50' from an existing well. As planned, this well surface location is greater than 50' from an existing well.

Per COGCC Rules TW is required to get surface owner approval of this location and a waiver of said rules 318A(l).a and 318A(l).c. The well is spotted as above in order to minimize surface disturbance while complying with your wishes and the Surface Use Agreement.

Should you find this acceptable please indicate so by signing the below section and returning the signed letter either via email to cdoke@petersonenergy.com, by fax or by mail. Please contact the undersigned at 970-669-7411 or 720-560-2700 with any questions.

Sincerely,

Clayton L. Doke
Petroleum Engineer
Peterson Energy Management, Inc.
Consultants to Tekton Windsor, LLC

I, MARTIN LIND, officer, agent, or employee of Raindance Aquatic Investments, LLC, surface owner of the above described lands, with full power to execute the following, do hereby approve of the Tekton Windsor, LLC Raindance #1-1-32 location as listed above on said lands in Section 30 T6N-R67W and grant a waiver COGCC Rule 318A(l).a and 318A(l).c granting that they may drilled as planned.

Signed  this 14th day of SEPTEMBER 2012
