However this well is actually located in the NWNE of Sec. 20. Not the SWSE of Sec. 20. The nearest water well, permit #57701-F, is located 6115' to the NW and has a static water level of 118'. The reference area for this location will be adjacent to the south side of the pad. All distances and the single point as a location reference for this location are measured from the proposed Federal 28-5BB well stake.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
