1120 Lincoln St., Suite 801
Denver, CO 80203

Attn: Mr. Matthew Lepore - Director

Request for Exception Location
Re: SG 42-22 Well Pad
SENE 22-7S-96W
Garfield County, Colorado

Dear Sir:

Colorado Oil and Gas Conservation Commission Safety Regulation number 603.a(2)
States:

Wellbore shall be a minimum distance of one hundred fifty (150) feet from a surface property line. If it is not feasible for the operator to meet this minimum distance requirement, a waiver from the offset surface owner shall be obtained.

Due to surface features in a highly topographically challenging area, and the need to optimize bottom hole placements for better drainage, WPX Energy Rocky Mountain, LLC asks that an exception location be granted.

A copy of the required waiver from the offset surface owner is enclosed. (Waiver will be recorded in the county clerk and recorder's office)

Sincerely,

A handwritten signature in blue ink that reads "Greg Davis".

Greg Davis
