Please be informed we have begun the remedial work on Union Pacific 73X29. Please consider this the 24 hour notice for the cement job.

We have already pumped cement from 2800 to 2250 with 100 SKS of cement, the holes took a lot more than expected, we will pump an additional 75 SKS from 2654 to 2220 ft to cover all the holes on 07-24-2012 at 1400

Projected plan
Have EOT at 2650 (+-)
Pump 75 SKS of G cement
POOH with tubing to get above cement top.
Shut in well over night.
