

BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

IN THE MATTER OF THE PROMULGATION AND ESTABLISHMENT OF FIELD RULES TO
GOVERN OPERATIONS IN THE WATTENBERG FIELD, WELD COUNTY, COLORADO

CAUSE NO. 407
DOCKET NO. 1010-UP-58
NOTICE OF HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

On December 19, 1983, the Commission issued Order No. 407-1 (amended on March 29, 2000 in accordance with Order No. 407-17, entered November 18, 1985), which, among other things, established 80-acre drilling and spacing units for the production of oil and/or gas and associated hydrocarbons from the Codell Formation underlying certain lands, including Section 2, Township 4 North, Range 67 West, 6th P.M., with the drilling and spacing unit to be designated by the operator drilling the first well in the quarter section, or the Director, if the operator fails to so designate. The permitted well must be located in the center of either 40-acre tract within the 80-acre drilling and spacing unit, with a tolerance of 200 feet in any direction. The operator has the option to drill an additional well on the undrilled 40-acre tract in each 80-acre drilling and spacing unit.

On February 19, 1992, the Commission issued Order No. 407-87 (amended August 20, 1993), which, among other things, established 80-acre drilling and spacing units for the production of oil and/or gas from the Codell and Niobrara Formations underlying certain lands, including Section 2, Township 4 North, Range 67 West, 6th P.M., with the permitted well locations in accordance with the provisions of Order No. 407-1.

On April 27, 1998, the Commission adopted Rule 318A(e)(1), which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. Section 2, Township 4 North, Range 67 West, 6th P.M., is subject to this Rule for the Codell and Niobrara Formations.

Colorado Revised Statute Section 34-60-116 authorizes the Commission to involuntarily pool separately owned interests located within a drilling unit, for the development and operation of such unit.

On September 1, 2010, Great Western Oil and Gas Company LLC ("Great Western"), by its attorneys, filed a Verified Application with the Commission asserting that Great Western owns an oil and gas leasehold interest in the SW¼ of Section 2, Township 4 North, Range 67 West, 6th P.M., Weld County, Colorado ("Section 2," hereinafter).

The Application further asserts that according to the records of the Commission, no wells have been drilled in the SW¼ of Section 2. Great Western desires to drill five (5) wells in SW¼ of Section 2 to the Codell and Niobrara Formations; the Coulson 2-13 and Coulson 2-14 Wells would be drilled on an 80-acre drilling and spacing unit composed of the W½ SW¼ of Section 2; the Coulson 2-23 and the Coulson 2-24 Wells would be drilled on an 80-acre drilling and spacing unit composed of the E½ SW¼ of Section 2; and the Coulson 2-53 Well would be drilled in the center of and on a 160-acre drilling and spacing unit composed of the SW¼ of Section 2.

Great Western seeks an order of the Commission establishing a 160-acre drilling and spacing unit, consisting of the SW¼ of Section 2, for the production of oil and gas and associated hydrocarbons from the Codell and Niobrara Formations from the Coulson 2-53 Well, which will be drilled to the center of the SW¼ pursuant to Commission Rule 318A.a.(4)(b).

Great Western further seeks an order pooling non-consenting owners in the proposed 160-acre drilling and spacing unit, consisting of the SW¼ of Section 2 for the production of oil and gas and associated hydrocarbons from the Codell and Niobrara Formations from the Coulson 2-53 Well, for the development and operation of the Codell and Niobrara Formations in such unit.

Great Western further seeks an order pooling all non-consenting owners in the 80-acre drilling and spacing unit, consisting of the W½ SW¼ of Section 2 for the production of oil and gas and associated hydrocarbons from the Codell and Niobrara Formations from the Coulson 2-23 and Coulson 2-24 Wells, for the development and operation of the Codell and Niobrara Formations in such unit.

Great Western further seeks an order pooling all non-consenting owners in the 80-acre drilling and spacing unit, consisting of the E½ SW¼ of Section 2 for the production of oil and gas and associated hydrocarbons from the Codell and Niobrara Formations from the Coulson 2-23 and Coulson 2-24 Wells, for the development and operation of the Codell and Niobrara Formations in such unit.
