Further, the Commission ordered that the establishment of the enhanced recovery unit and enhanced recovery operations for the Application Lands, for the development and operation of the "D" Sand Formation, shall become effective upon further Order of the Commission following a demonstration by East Cheyenne that 80% or more of the royalty interest owners have approved and consent to the proposed unit.

6. On October 6, 2010, East Cheyenne, by its attorney, filed with the Commission a verified application ("Application") alleging that East Cheyenne has obtained the written approval and consent of 80% or more of the royalty interest owners required to make effective the establishment of the enhanced recovery unit and authorize enhanced recovery operations for the above-listed lands, for the development and operation of the "D" Sand Formation.
7. On November 15, 2010, East Cheyenne, by its attorney, filed with the Commission a written request pursuant to Rule 511., to approve the Application based on the merits of the verified application and the supporting exhibits. Sworn written testimony and exhibits were submitted in support of the Application.
8. Testimony and exhibits submitted in support of the Application by Arlen J. Hershberger, consulting Landman for East Cheyenne, showed that East Cheyenne has in fact acquired the written consent of over 80% of the royalty interest owners in the Application Lands.

9. The above-referenced testimony and exhibits show that granting the Application will allow more efficient reservoir drainage, will prevent waste, will assure a greater ultimate recovery of oil, gas and associated hydrocarbons, and will not violate correlative rights.

10. East Cheyenne Gas Storage, LLC, agreed to be bound by an oral order of the Commission.

11. Based on the facts stated in the verified application, having received no protests, and based on the Hearing Officer review of the application under Rule 511., it is recommended that the Commission should enter an order approving the establishment of the enhanced recovery unit and enhanced recovery operations for certain portions of the "D" Sand Formation in the Pertz West Field, Logan County, Colorado for an enhanced recovery project.
